DIPLOMA IN TRANSPLANT COORDINATORS' TRAINING & GRIEF COUNSELLING

(A TECHNICAL AND SCIENTIFIC TRAINING DIPLOMA)

MOHAN Foundation (Multi Organ Harvesting Aid Network) based in Chennai has been working in the field of deceased organ donation since 1997. Now, under the aegis of Indira Gandhi National Open University, MOHAN Foundation has started a Community College which will run programmes in specialised need-based areas – the first one being a **one year Diploma in Transplant Coordinators' Training and Grief Counselling**. This particular course is the **only one of its kind in India and South Asia**.

The success of an organ donation and transplant program depends on good coordination and trained transplant coordinators are the key. The Government of India in its 2009 gazette has made transplant coordinator nomination mandatory before a hospital is registered as a transplant hospital. This means that there is a huge requirement for trained transplant coordinators in over 300 transplant hospitals in the country. At present there are only about a dozen fully trained co-ordinators available in this programme.

Objectives

Creating a cadre of health-care professionals dedicated to "Transplant Coordination and Grief Counselling" in India and South Asia.

Course Duration & Eligibility

- One year (part-time)
- Graduates in the sciences, social work, clinical psychology, sociology, physiotherapy as well as candidates with a Diploma in General Nursing and Midwifery are eligible to apply. In addition, graduates in any field with good communication skills and an interest in the area of organ donation can do the course.
